

INTERNATIONAL SCHOOL AWARD (ISA)

#Proud moment for Modernites#

At Modern School, It has always been the school's endeavour to impart quality education to its students and equip them with essential skills to emerge as responsible global citizens.

Our school registered with the British Council for the International School Award (ISA).

The ISA is an accreditation framework offered by the British Council. It is a global benchmarking project that appreciates schools for their outstanding contribution in developing a global dimension in curriculum and enriching teaching and learning through new practices.

To make the dream a reality, an annual ISA Action Plan was drafted which has been approved by the British Council. In this we will organise and conduct lots and lots of educational and recreational activities by involving each student and each teacher .

Under the ISA initiative, the students of the school will be collaborated with partner schools from different countries like UK, Canada, Russia, Japan , China etc and will share knowledge and views on different global issues through technology based mediums like Skype sessions, British Council Connecting Classroom's Project Spaces, e-mails etc.

We wish all our students and teachers "Good Luck" for this new journey.
